# THE ARTS

From Flicker Fusion

ARTIST: WENDY WAGNER

## FLICKER FUSION

DIVERSEWORKS, JAN. 11 - FEB. 23

Since 1914 when the first animated film was made, artists across the globe have been providing access to animated worlds that live only in the imagination. Digital animation and virtual reality technology have propelled the art of animation to a level of

realism and interactivity that was unimaginable just a few short years ago. *Flicker Fusion* turns DiverseWorks' main gallery into a virtual multi-plex showcasing an impressive collection of international artists pushing the limits of animation technology alongside artists employing more traditional, hand-drawn techniques to create works that are by turn insightful, stimulating, and downright hypnotic.
